Syncro Connect

Save time. Cut costs. Stay in sync.

Cloud based workforce management built for UK businesses of all sizes. Powerful web software, a GPS mobile clocking in app and integrated absence management, all in one place. Simple to set up and easy to use.

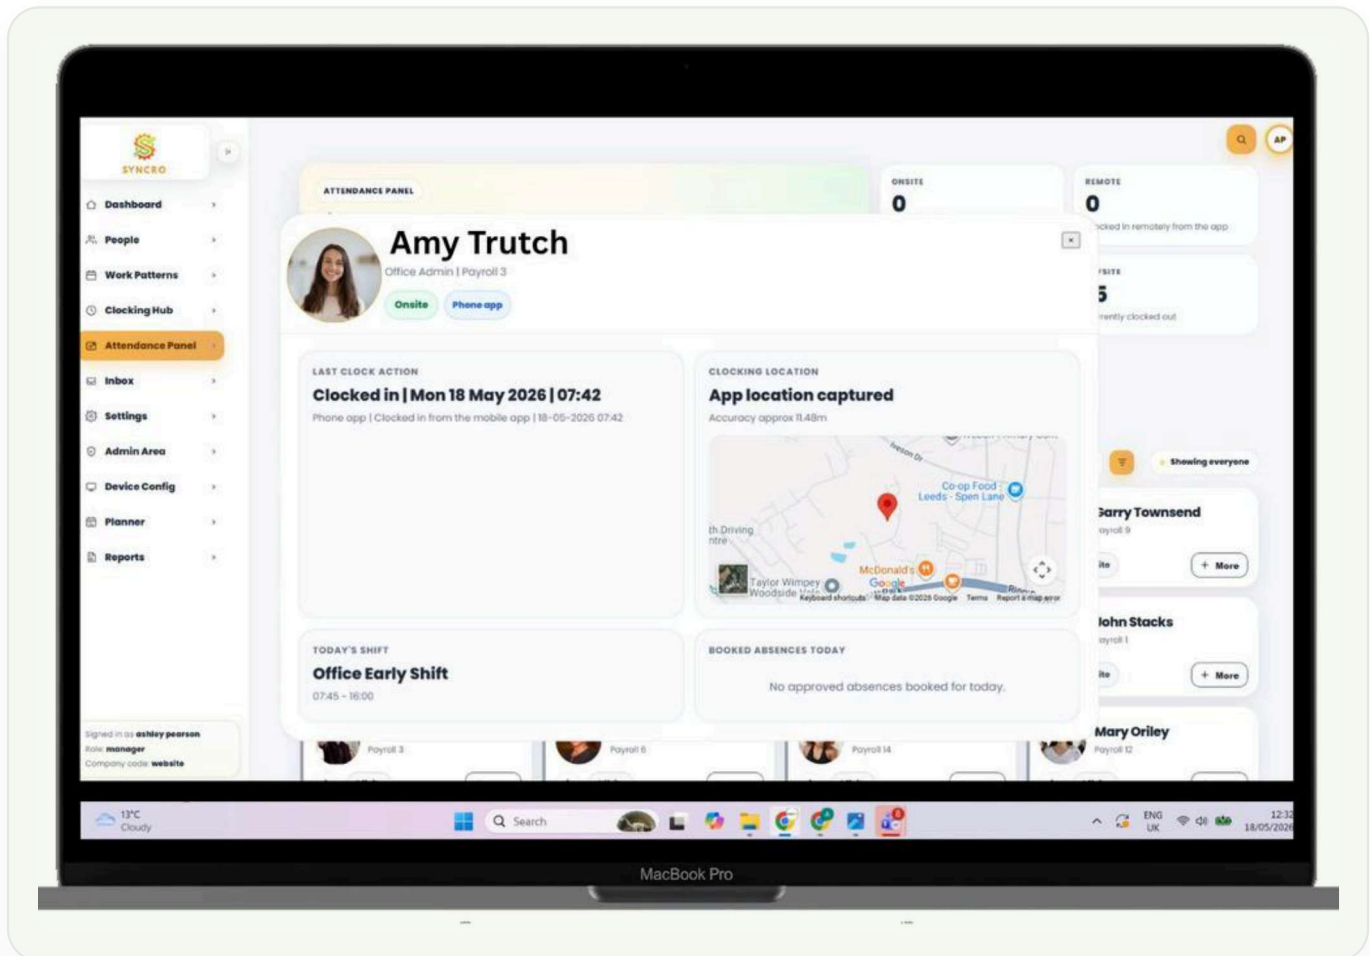

Free trial, no card required. Monthly rolling contract, cancel anytime. From £2 per employee per month.

- ✓ Cloud based, no installation
- ✓ GPS mobile clocking app
- ✓ UK support from Leeds

— WHAT IS SYNCRO CONNECT?

The next generation of workforce management

Syncro Connect brings time and attendance tracking, absence management and mobile clocking into one fully integrated, cloud based platform. Unlike traditional clocking systems that need complex installation and long term contracts, Syncro Connect is web based, mobile friendly and ready to use within days. Pay monthly, cancel anytime.

The Syncro Connect manager dashboard

— THREE CONNECTED PARTS

Everything you need to manage your team

1 Workforce software

Track hours, attendance and payroll ready reports from one cloud dashboard.

2 Mobile app

GPS verified clocking in and out from anywhere on iOS and Android.

3 Absence management

Holiday requests, instant approvals and real time balances, fully integrated.

One platform, three powerful pieces

1 Syncro Connect workforce software

Manage your entire workforce from a single cloud based dashboard. Track hours, monitor attendance, run payroll ready reports and manage schedules in real time from any browser.

- ✓ Real time attendance tracking and dashboards
- ✓ Automated timesheet generation
- ✓ Bradford Factor and absence reporting
- ✓ Payroll ready exports to Sage, Pegasus and QuickBooks
- ✓ Multi-site and department management
- ✓ GDPR compliant cloud data storage

2 Syncro mobile app

Let employees clock in and out from anywhere on iOS or Android. GPS location is recorded at the point of clocking, giving managers real time visibility of remote and field based teams.

- ✓ GPS verified mobile clocking in and out
- ✓ Works offline with automatic sync
- ✓ Self service for holidays, timesheets and entitlement
- ✓ Push notifications for approvals and exceptions
- ✓ Compatible with iOS and Android
- ✓ Simple four tap interface, no training needed

3 Absence management

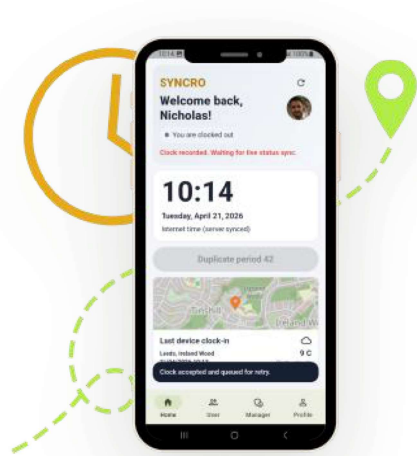

Take control of absence with a fully integrated system. Employees submit holiday requests in the app, managers approve instantly, and balances update in real time.

- ✓ Holiday request and approval workflow
- ✓ Real time entitlement and remaining balance
- ✓ Bradford Factor absence scoring and reporting
- ✓ Unauthorised absence tracking and alerts
- ✓ Integrated with payroll for accurate holiday pay
- ✓ Supports holiday, sick and unpaid leave types

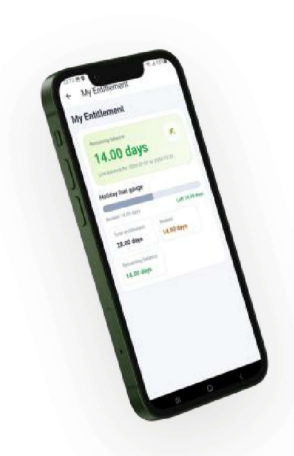

— THE SYNCRO MOBILE APP

Clocking in, from anywhere

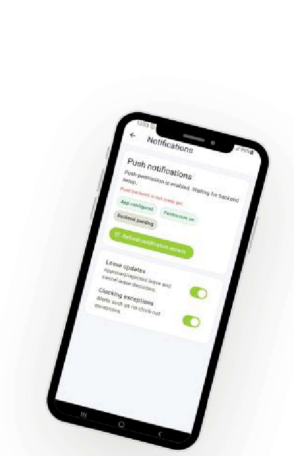

Our clocking in app gives you complete control over time tracking, attendance and workforce management from a single platform. Employees clock in and out from anywhere using their smartphones, while managers gain real time visibility of working hours, GPS locations, holidays and timesheets.

GPS clocking in

Holiday entitlement

Leave and clocking alerts

— KEY BENEFITS FOR UK BUSINESSES

- Accurate time tracking**
Eliminate manual timesheets and reduce payroll errors with precise digital records.
- Real time workforce visibility**
See where employees clock in and out with GPS enabled tracking across the UK.
- Improved payroll accuracy**
Make sure employees are paid correctly based on the actual hours they work.
- Employee self service**
Give staff access to their hours, holidays and records without needing HR support.

— HOW THE APP WORKS

- 1 Employees download the app on Android or iOS
- 2 They clock in and out with a single tap
- 3 GPS and NFC technology record their location
- 4 Data is sent instantly to managers and admin teams
- 5 Employees request holidays and view timesheets
- 6 Reports are generated automatically for payroll and compliance

— WHO IS IT FOR?

Construction

Facilities management

Healthcare providers

Field service engineers

Logistics and transport

Security companies

Any business with remote or mobile staff

COMPATIBLE HARDWARE

Choose a clocking device, or go device free

Syncro Connect works without any hardware at all using the mobile app, or with a clocking terminal if you prefer a fixed point on site. Every terminal is WiFi enabled, GDPR compliant, includes backup RFID card and PIN as standard, and is compatible across all of our time and attendance systems. If you already have a Computime clock, Syncro works with it.

FA 1000
Facial recognition
£395

U600
Fingerprint
£495

S600 C
RFID reader
£395

WHICH CLOCKING METHOD IS BEST FOR YOU?

METHOD	BEST FOR	COST	ACCURACY	KEY BENEFIT
RFID cards	Offices and small teams	Low	Medium	Simple and affordable
Fingerprint	Warehouses and secure sites	Medium	High	Prevents time fraud
Facial recognition	Multi-site or hygiene sensitive	Higher	Very high	Contactless and fast
Mobile app	Remote and field teams	Low to medium	High	Flexible and scalable

Hardware prices are a starting point and exclude VAT.

— WHY CHOOSE SYNCRO CONNECT?

Modern, simple and made in the UK

Developed and supported by Computime, a Leeds based time and attendance specialist with over 30 years experience. Built from the ground up for modern businesses: faster to set up, easier to use and more affordable than legacy alternatives, with no hardware dependencies and no long term contracts.

Trusted by UK businesses

“ We are really pleased with our Computime solution. Payroll is now processed accurately and efficiently, helping to boost morale for our head office staff and our field teams. Real time data means we know where our employees are, allowing us to operate more efficiently.

JD

James Dunlop

Financial Manager, Landworth Electrics

“ We are very pleased with the smooth implementation. Computime worked very hard to make sure installation was completed within the time frame and with minimum disruption. The in-depth training allowed us to focus on production and keeping our employees safe.

CB

Clare Barker

HR Manager, Wholebake Limited

“ The software proved easy to use and the helpdesk was very helpful and friendly. Computime have exceeded all of our expectations and objectives. I would definitely recommend them.

Frequently asked questions

? How is Syncro Connect different from traditional systems?

Built from the ground up for modern businesses. No complex hardware installation, no lengthy projects and no long term contracts. It is cloud based and ready in days, with a full GPS mobile app, integrated absence management and automatic updates.

? Is a clocking in app legal in the UK?

Yes, and it is widely used by businesses of all sizes. Employers must comply with UK GDPR by informing employees what data is collected, including GPS location, how it is stored and how it is used.

? Is there a free trial?

Yes, with no commitment. The trial gives full access to the software, mobile app and absence management so you can see exactly how it works before committing.

? Does the mobile app work without internet?

Yes. The app works offline and syncs automatically once signal returns, so no clocking records are lost. The web based management software requires an internet connection as it is cloud hosted.

Ready to try Syncro Connect?

Start your free trial today and see why UK businesses choose Syncro Connect. No setup fees, no long term contracts, no commitment. Available on iOS and Android.
